Boats that cross the generations

The PuttPutt Boat Cruisers

Item # HH120

Item # HH119

Item # HH121

These large cruisers are as pretty as they get. Back in the 40's, manufacturers could not have made these beauties. We have three models to choose from. All the cruisers have the large PuttPutt engine and are 9-1/2" long, 4" wide, by 2" tall.

Item # HH113

The PT109 Series

Each of these boats in the PT109 Series have lithographs that are top notch!

Item # HH111

Item # HH110

The large PT109 boats measure 9-1/2" long, 4" wide, by 3" tall. The small PT109 boats are 5-1/4" long, 2-1/2" wide, and 1-3/4" tall. Available in both military green and yellow.

Item # HH112

The Original Series

The Original PuttPutt Boats are 5-1/2" long, 2-1/4" wide, and 1-1/4" tall. No rudder. Item # HH103 Available in red, green, yellow, blue, light blue, and light red.

Recycled Tin

Made from recycled tin containers. Item # HH122

The Science of Steamboats Kits

The Science of Steamboats Student Kit includes a 28 page book, filled with fun experiments that students literally get their hands wet doing. The students use control variables to demonstrate a variety of physics properties such as energy conversion, fuel efficiencies, and vessel hull displacement. Students are challenged with developing conclusions and applying the theories to real world solutions. Each experiment details setup, measuring, procedures, and facts about the demonstrated physics. Kit contains: Instruction Guide, PuttPutt Original Steamboat, fuel tray, wick holder, wicking material, and 6 PuttPutt Fuel Cells. Item # HH115

Also available in **The Classroom Kit**. Kit contains: Instruction Guide, 7 PuttPutt Original Steamboats, 7 fuel trays, 7 wick holders, wicking material, 7 sets of 17 weights, and 30 PuttPutt Fuel Cells. Item # HH700
